-Concerning my situation, everyone involved with me has been just great & very professional! Your service has been nothing but the best. I cannot find one thing, really, to improve on. I greatly appreciate how GOOD this course has been in many ways. But one most important to me was that I learned something. Thank you!

-Thx so much!! God bless!! :)

-Although I did this online, it was very refreshing and so true! I forwarded some of the information to our son in college. Our family has been through a lot since my husband lost his job 10 months ago, and things have been rough. Thank you

-I found this on-line course very helpful and educational. In fact, I learned a lot. Thank you very much for being a part of my re-education into finances and hopefully I will never find myself in this situation again.

-thank u i enjoyed this program

-I found this course to be extremely helpful! I would recommend this course to other individuals I know! I received a great deal of helpful information today and I have a new outlook on my financial future!! Thank you!

-I first thought this program was going to be boring-truthfully. I quickly changed my mind once I began ready chapter one-wow!!! From the first chapter through the eighth chapter I have really learned so much, I was kinda sad to find myself upon the last test. I wish I knew what I know now!!!!Your program was easy to understand and the excel programs were great tools to have for now and the future. I really enjoyed learning so much, I look forward to using the tools and advice you have provided me with. Thank You

-I truly enjoyed taking this course. It was very insightful and easy to understand. I will take the principles I learned and apply them to my everyday life. It is nice to know that although I have made some mistakes in the past with my money, I can still come back and excel. I have only myself to blame. Thanks again.

-This class changed my life. I wish I could have had this class when i first went into business and or first saw problems. But i can take it now and will improve 100%. Thank you very much.

-I want to thank you guys for the help and not making me feel any worse than I already do. The program is very easy to understand and very workable. I feel like I can avoid this problem from ever happening again and I will recommend your services to anyone who has a problem. Thanks again.

-This course was a real eye-opener for me. My husband died on Sept. 30th of this year. He left me with all my debts, no life ins. and I am not 60 years old for another 14 months, so cannot collect on his Social Security. I am disabled and unable to work, have applied for Disability and am still awaiting my hearing. I really do need this budget info. Thanks

-Great basic course in managing your finances and would recommended to anyone. Thanks for your assistance!

-thanks

-This Course was extremely helpful. My Divorce was devastating to me, emotionally and financially. This Course is teaching me financial discipline and responsibility (previously difficult to maintain during my Marriage). I will continually be in a "learning trend", particularly with financial matters.

-My deep thanks for the time and considerable dedication to the development of this program. My life has been going down the toilet for the last year-- losing my job, my health is poor. Your course gave me insight for a better future financially. THANK YOU!

-Thank you for the course, it was helpful.

-This has been an eye opening experience for my wife and myself. I have learned a lot of things that I should have known a long time ago. We both feel that we will be getting a second chance to do things financial correct this time. We are currently working on a budget and setting new goals as we start a new chapter in our lives together. With the help that we have gotten from CCCS and the people involved with this company we are on the way to a happy and financially sound future. THANK YOU

-The was an excellent financial course, very helpful and I have learned a lot. Thank you very much for giving me the knowledge to change my financial world. I have learned from my mistakes and ignorance of handling money.... now I feel equipped and ready to start again the correct way. I wish I had this information given to me long ago. Again, thank you.

-I think this course will help me with my financial situation in the future. In particular the application of budgeting our money!

-I enjoyed taking this online class and will share this information with friends and family members so they do not get in trouble with their finances. This class and information was very helpful. I sure wish I did not have to do a Chap 7. I really was very good with my money before. I just had an ex-husband that did not step-up and take some of his share of the bills at the divorce to help with the money problems and they overwhelmed me - so I had to just leave everything. This just reinforced my need to watch out for my spending habits and be sure I put money aside for saving 1st and

trust no one. I do want to have a bank account. I do need help in reestablishing my credit after this trouble. Thank you very much. Again it was a great class!!

-A similar course should be a part of premarital counseling; and some level required for high school students.

-I have never had a course dealing with finances before. All of this info has been very helpful to me to understand financial planning for my future. I can now make choices based on good information rather than aimlessly making wrong decisions based on my own desires or gut feeling. Thank you for this valuable info.

-Your information is very right . My needs are different because of health and future needs that may be forth coming and the preparation for possibly living in an assisted living home. With the debt burden as is I can not plan for living and funeral expenses .I am 70 yrs old and I do have serious chest pain that I will have to begin tests and treatments . I do thank you for the course . It is well put together.

-Thank you for helping me set up my computer to take this on line. Thanks also for your friendliness when I came in on Friday to pay for the class and receive my ID numbers.

-Over the past year, I have experienced what you may call "Financial Turmoil". I have seen myself in a very tight situation, and I would hate to go through this experience ever again. There are so many times that I think to myself, "If only I would have don't this differently". However, each day I find myself learning more about self control, and discipline. This course was very helpful. It showed me lots of new techniques that I can use, to never see myself going through this ever again. Thank you!

-Thank you so much for all the information that I just learned and I have a better understanding of a budget and how it will help me and also about saving money and how to save money. I truly appreciate your assistance and this online course. It is so hard for me to do this in person in a classroom setting because I am a farmer and my hours vary. Thanks again!

-I did not think that this program would apply to my life much. I thought I was only completing it as a part of my bankruptcy post-certification. However, I have learned a lot from this program and will budget and manage my finances to ensure my financial health will remain strong. Thank you!

-To be honest I was not looking forward to doing this because of the time element. But, now that I have completed it, I think it was worth every minute. In fact I think this is a course that would be helpful to anyone. Thank you

-at first i thought this was going to be just a boring course that i was required by law to take. but now that i took it, i am so grateful, there is a lot that i already knew, but thanks to this course and of course being required to take it, i really learnt alot more and it was encouraging that i will have a life again after bankruptcy, it will take awhile, but at least then i will know how to handle it was again as i was able to do so years ago. i had a very high credit score and then too many things in life happened and i lost it all!...thank you once again, and i hope to be able to come back to this website for referrals and refresh my mind one step at a time.

-THE COURSE WAS VERY EASY TO UNDERSTAND AND HELPED ME TO REALIZE WHAT I HAVE BEEN DOING WRONG, I AM VERY GRATEFUL. I GUESS SOME DARK CLOUDS DO HAVE A SILVER LINING

-The course material was very easy to understand and very helpful in understanding how quickly you can get into financial trouble. The material was also very detailed in explaining how you can get your finances back in order by taking the time to make a budget and knowing what your limitations are.

-we have recommended that our soon-to-be-graduated college age son look over the materials for his benefit as he enters the job market and begins his professional life. He said he thought it a good idea himself.

-Thanks I believe this course will help me in the future.....

-This course helped me out a lot. I can relate to quite a few stories in here and now I know how to help myself stay out of debt. Thanks

-This information is helpful but at age 73 I find myself wishing I had been taught this when I was in High School or at some point during my marriage and the years I was raising my family.

- At first I thought that the class was a waste of time but I was very wrong about that, I will apply this class to my daily life. Thank you so much!

-Although simply written, I learned a lot from the course book. In our situation, we are on track and have been for quite some time, but the book taught me ways to tweak & refine what we are already doing. The instructor was very friendly, informative and non-discriminatory in his speaking presentation. Everyone could benefit from this information not just people who are experiencing financial difficulty.

-I found this course to be extremely helpful and learned a lot about managing my finances. I wish I had taken this course many years ago. If I had, I doubt I would have reached the point where I had to file for bankruptcy. Thank you for an easy to understand, relevant, informative course!
