

Money In Motion Student Comments

5/15/08 – 6/14/08

-We are retired, and this whole experience just goes to show me how important it is to have a budget, and to get off on the right foot. We have struggled all through our married life. I believe that additional education in the school system would benefit future generations. Thank you for giving us the opportunity to benefit from this information.

-Money in Motion will be a financial Bible for me in the future, there are many segments that were very interesting and helpful thank you

-Overall, I would like to compliment you and your staff and the preparers who put this informative course together. I was 100% satisfied and impressed with the useful knowledge contained in the text material, as well as in the tips and review sections. I only wish I had been offered this as a class in high school or during the younger years of my life; I have no doubt that I would have had a much clearer picture of how to manage my expenses and savings accounts, setting goals, etc. This class was certainly worth the money paid and will be helpful in the future.

-Thank you for providing an intelligent "adult" course of financial understanding that should be mandated in every school throughout the country. It is never a huge amount of information that makes a difference but simply the lack of knowing one or two key pieces of information at the right time. Even at my age, I gained several new pieces of helpful knowledge that will be valuable to me. Thank you.

-I have learned quite a bit from this material. I think if everyone took this course we would all understand a little more on how a budget really affects how you spend your money. Maybe the United States government needs to take this lesson? Maybe.

- I thought this Online Bankruptcy Counseling program was very, very, helpful in not only giving me an understanding of how I got myself into this situation but how I can apply what I learned tonight to prevent it from ever happening again! Thank you so much!!!!

-There was a lot of good information in these chapters that really makes you think about how you spend your money.....This class should be given to high school and college students before they get themselves into financial trouble.....GREAT PROGRAM.....

-I truly want to thank you for the complete information I needed. It was a lot easier than I thought, I really did not know what to expect or how hard it would be. Because it was explained, (I used audio) it made me more at ease. I would have never dreamed I would have ever found myself in this position. Many thanks again for all you help.

-Excellent program- very useful, very relevant. Only wish I had encountered the program prior to my financial difficulties. I am going through a bankruptcy, and only wish I had found this program

sooner. I believe it would have helped me avoid bankruptcy.

-I found this online course to be both informative and convenient. The course has made me more aware of the importance of learning to be more aware of how budgeting and timely payment of loans can greatly affect my future credit. I will now be vigilant in protecting my future credit score.

-I am a single parent who, up until 4 years ago had excellent credit but due to some serious family problems w/ ex-husband, and my oldest son, got into very bad debt and had to end up filing bankruptcy. I am not proud of this, but hope and pray I will be able to once again rebuild and have safe guards (goals and budget) set up for the future. And am thankful for the info. from this course to start afresh.

-i learned a lot from this course that i will implement in my life. i am grateful that i could complete it online due to having a teenager with special needs and two additional small children. thank you

-I really appreciate, with my busy schedule, to be able to complete my credit counseling online. It has been a big help and good material. If there is someplace online that I can get additional help about the above topics that I have marked, please let me know. Thanks

-This course was very helpful to me in that it has shown me the importance of having a well- visualized budget and also knowing how to set realistic goals. I have never really had a well-thought out budget and how to attain goals I have desired in life. I believe in being truly committed to thoughtful, planned and disciplined money managing. I could prevent having to be found in any type of bankrupt state in the future. Thank you for this eye-opening course.

-I feel that this was an astonishing source of information. I am 76 years old, married, have been in business, have 5 children and have not ever been presented the information that I found in this course Apparently my children have, since all five are very successful.

-It was a very thorough but understandable course. I so wish they would have taught this exact same course in High School instead of algebra and geometry! I would be interested in a version of this that is kid friendly. The course was also encouraging and hopeful. Thanks

-The course has been very helpful. I found out a lot about credit cards that I had not taken the time to investigate. My husband died 12-01-07, and so far the company has responded with about half of the agreements. They are filing bankruptcy. I need to make sure that I am prepared for unexpected problems, and you have helped me do that. thank you .

-I honestly enjoyed every aspect of this. I learned so many avenues of budgeting and making and keeping realistic goals as well as saving money. I feel as though I can accomplish worthwhile goals to keep me from falling into debt again. I'm relieved. THANK YOU.

-this course should be recommended for everyone even if they don't

have problems. I enjoyed this course and could learn a lot from it and hope in the future that I don't have to go through this again. thank you

-This has really helped me change my mind about the way I manage my money. I especially like how to budget and set goals. I have always set a budget but did not have a goal. Thank you for helping me change my attitude and behaviors towards money

-I am so surprised that how much I spend by just buying from vending machines and stopping at the local express mark to get soda and chips without even of how much this adds up to in a month. Also with the price of gas, joy riding is not an option anymore. This exercise was very helpful. With me the reading of the contract have hurt me in the pass. Thanks

-The instructor was respectful and empathetic not condescending at all He was also encouraging about our financial future. As we are all feeling a sense of failure at this time his attitude was refreshing and unexceptionally pleasant

-I learned a little but I think the material I knew before has really sunk in this time. Your course really brought home some home truths to me. I would recommend this course to moms about to have kids go off to college because I traced the route of my problems to not being educated before leaving home for college and my career. You might also stress that careers take a little time to build and money might be tight to start with even if you have not incurred debt before leaving college. College campuses are packed with people trying to get you to sign up for credit cards. If you are educated you might spend more wisely and have less debt when your life truly begins after college.

-Program actually changed the way I look at my income and finances. I have now adopted new ways to control my income. I highly recommend this course to anyone to avoid the situations I faced. Thank you...very much!

-I hate the fact that we have gotten into this financial situation, but this program makes me feel that we are not alone and that we can survive and even improve.

-John 3:16 May God richly bless you and Thank You. This is an excellent course, especially the audio and visuals. Well Done and nicely researched and prepared. Very Professionally done.

-I was required to take this course because of filing bankruptcy. I thought it would be boring and would not really accomplish anything. I was astounded at how little I really knew about financial matters. I really learned a lot and intend to use this information so I can have a better financial future. Thanks for the information.

-Although I am familiar with most of the subject matter, it doesn't hurt to remind myself how the basic common sense of it all doesn't always make it easy to accomplish in reality! Having just gone thru bankruptcy hearing, I have a whole new budget set up but I am certain it will change continually as my son nears college age and I

work toward retirement before I turn 90! Good lesson that serves as a reminder of how personal a budget and that it can be flexible to meet your needs. I feel very good to know I have finally placed my savings account at the top of financial priority list! Thanks -- this was straight forward and I appreciated being able complete the online course at my own speed. Also, the worksheets provided were helpful. My previous budget sheet seemed overwhelming!

-This was a very useful tool. I found it easier and got more out of it by using the audio as opposed to reading it to myself. It forced me to follow along and really absorb what was being taught.

-I would like to thank everyone who has helped me with getting my life back on track; I really needed this course today. it really helped me to plan a budget and stay out of debt, and paying my bills first not last, So I would like to say thank you

-I feel that this course was very beneficial to me and my knowledge of credit and spending habits. I plan on finding spending leaks and correcting them so I can take that money and increase my personal savings.

-It was an interesting course and makes a lot of sense. I know now that if I had all of this information readily available when I first started having debt problems, I would have not pursued bankruptcy!!! It's been a tough lesson to learn.

-I wish I had this course two years ago. I have learned a great deal. Though frustrated, because I have dug such a deep hole, I am already taking measures through budgeting and reducing spending, etc. This gives me light at the end of the tunnel that someday I will be back on my feet and better equipped to handle my finances responsibly.

-This was very helpful to me. I wish that there was some way I could have received this training years ago...like before I ever got a credit card...if so I might not be in the position that I am in now.

-THIS COURSE MADE THE IDEA OF BUDGETING SIMPLER THAN BOOKS I HAVE READ. IT'S ALWAYS HARD TO PLAN ON THE UNEXPECTED EXPENSES THAT COME UP.

-The information in this course is very helpful. This information should be taught in our schools, in our churches, and modeled by our national leaders.

-I cannot tell you how I enjoyed this course, especially under the present circumstances in which we Never thought we would be experiencing! This is a course we will share with our children! Thank you so very much for providing this information, it was so helpful!!!!

-Divorce can do more than break your heart and mental health; it can break your financial health, but after taking the course, I feel so much better in learning some tools to help me rebound. God bless!

-I plan to keep copies of the Chapters to refer back to them if needed.

-Excellent program, made me look at a lot of things and wastefulness in the way I sometimes spend money...maybe that is why I am where I am at. I am using this already to help me look at all the little things that you need to set up a budget and be successful. A lot of great information

-Filing bankruptcy was a very difficult decision for me to make but because of my stroke I had no choice. The information in this course was very helpful in giving me the confidence that I can rebuild my credit and that I will use it wisely. Thank you!

-Course material was helpful and well thought out

-Thank you for this. I was a bit skeptical at first, but this was so much pertinent information that I can continue to use, I am grateful for your class. Thanks Again and God Bless

-Thank you, I truly thought I knew what mistakes I had made and why. But, I did learn from taking this course. Setting GOALS is very important with a budget and savings should come at the TOP of the list. This was very informative. I will be starting out fresh with your new directions and feel confident I can succeed.

-This course was very simple to follow and understand and has helped me change my thinking toward my current situation and the future. Thank You

-This course was very educational and interesting. Very helpful with the laws concerning creditors and our rights. This course will be very helpful to me for future budgeting and handling my finances. Thank You

-The course was quite helpful in understanding terms I had never taken the time to fully know what they meant. The power of saving, paying oneself first and having great results are not for those with a large income, but the results can be accomplished by a series of the right steps. Very Useful.

-This course should be assigned as a Mandatory requirement for graduation in 10th through 12th grade in High School or a requirement before obtaining employment. People need to know and understand this information before earning an income, to prevent the financial problems that occur during a life time.

-Now that I have completed the test and soon to appear in court for bankruptcy, I would really like to know how to rebuild my credit. I pay all utilities on time but do I need to buy like a piece of jewelry with credit and make monthly payments? I really enjoyed your online course.

-I am older & was really worried about the difficulty of taking a test for bankruptcy. This program helps step by step. Thank you.

-In the month since I first came to your organization I have found that having zero credit cards was a plus. I have been able to open a second checking account which I keep a minimum amount in. This is used for certain things I need to purchase online or as a backup. I used that card for this test. This way I am not giving out my personal information by giving out my checking account number, resulting in a smaller amount of cash that could be stolen. I also have been saving some money, sometimes which must be moved into the checking account if necessary. I have found that I now want to save money and am heading towards a goal of saving at least \$1000 by the end of this year. Thank you for the information given to me to help me improve my life. I will pass on this information to family and friends, but only if they are interested in learning how to help themselves.

-the course was excellent. I have to say at first it seemed a little drab and slow going, but once you get into it, you really learn some items that relate to everyday topics. Some items such as all of the acts put into place for and to protect consumers should be widely known and I was surprised that in my vast amount of knowledge that I did not know some of these things. Great course and again it has really helped to create an understanding of what a consumer should and should not do!

-This was far more interesting as well as informative than the pre-file course that we completed (with another company).

-well organized on-line course; I had a very positive experience with this program; thanks,

-I just recently purchased Microsoft Money to track my income and expenses. I am working to set goals and establish a budget that will work for me and my family. I want so much to get my finances in order.

-I really learned valuable information. I only wish I had taken something like this in High School or College 45 years ago. I was not smart enough or grown up enough to enroll in classes like money management back then. I ended up becoming credit card poor early in my life. I appreciate this time I spent doing this class and learning information that will help me in my life right now.

-Although this was a required program I wish I was introduced to this many years ago before we got to a place of needing to file bankruptcy. This information should be mandatory in high school learning so that kids develop the proper attitude toward money and know how to use credit correctly.

-The bankruptcy option was very hard for me and embarrassing. This course made it a little less so! Thank you!

-After taking this course, I agree totally that it is a very important part and should remain mandatory, in any type of bankruptcy. I found it very useful.

- Thank You and everyone involved for creating this online course. It was very educational and clearly understandable. It also makes good reference to the Viper waiting in the pit that causes more problems than should be allowed by law, by compounding the overall problem with more unexpected financial burdens, known as "The Universal Default Clause". This law should be changed to "prevent" creditors from "jacking their rates" because of a problem with just one creditor. This would allow continued payments to be made on other accounts that are still in good standing, instead of adding them to the overall problem. This would allow greater chances of negotiating a settlement with the problem creditor, instead of making all the creditors jump into the same barrel that only compounds the overall problem. It is because of this "Clause" that I ended up having to file for bankruptcy. All 4 of my accounts were in great standing, until one creditor jumped my payments and rates out of my budget range, and refused to work with me, (by honoring their end of the agreement we reached), to resolve the issue. This "Clause" instead allowed the other creditors to jump into the "quicksand", and in turn create more of a problem than it should have been. Thankfully 2 of the creditors agreed to return the rates to the original amounts, and in turn reduced the problem and got me closer to my budget, but the ship was already sinking at that point. The "Universal Default Clause" should be rewritten to include the word "NOT", so other creditors can "NOT" raise their rates because of a problem with just one creditor alone. And that is all I have to say about it! Thank You.
