

## Money in Motion Student Comments

9/15 – 10/14/08

-I had a feeling like I was sailing in sinking ship; I was afraid about the future; now after I taken this step I feel like I have a chance and I have reached safely to the shore. I will be very careful in my financial aspects in my future by securing a good job.

-The material was so relevant to my life it was almost eerie. It was like each chapter was written for me.

-This will help me the rest of my life.

-Awesome!

-Excellent...in that it seemed to cover every single facet of personal money management!

-I wish so much that I could have read and taken this test BEFORE I got into such a financial crunch.... It is so helpful, and helps me understand the meaning of debt, and how easy it is to get into debt, and how hard it is to get out. I HIGHLY recommend this class to EVERYONE who chooses to use credit cards... I am so THANKFUL that I now have the knowledge I needed, to keep myself out of debt. I LOVE the "budget and goals" idea. I am anxious to get started in my new life. Debt free... :) THANK YOU SO MUCH

-It was very helpful. I wish my x-wife and I would have had a program like this earlier. It probably would have saved my marriage.

- Upon completion of this course I must ask why it is not a requirement for all Citizens of this country to take this course? I felt the material presented offered information crucial to making decisions for your future. Several of the situations mentioned i had to experience the hard way to learn how that system worked. Being an employee at Citibank/Florence,KY helped me avoid several others but the fact remains that i was nearly 23 before i realized i was in trouble and needed to take action. I will reinforce my first statement by saying that society could take a step forward by using this program and i personally will recommend it to my family and friends. In short I thank whoever has made this program possible.

-I have learned so much. My attitude toward money, savings and debt has totally changed. I actually finally feel like I can be at a point where I can have a savings account, pay all my bills and be able to sleep at night. Thank you for an A1 course. Thank you!

**-I loved the online course; I can take my time and read over each chapter. Doing this course in your only home is great I can spend time reading over and over again chapters, to get it in my thick head...**

**-This was a very informative course. Putting savings at the top of the budget and not leaving it until the end was a new tool that I learned. Keeping a daily record of expenses is a practical tool that we will now use. A goal card will now be a constant in my wallet, to be more prudent with spending and as an incentive for my short, mid and long term goals. Thank you.**

**-What led me to this program was not so favorable; the majority of my debt was medical bills. However following a divorce, separation, birth of my son and already having a 5 year old daughter, i was overwhelmed. Your services are very informative and gave me hope that everything would work out. I feel like i will be able to manage my money better and my time, not worrying so much about all this. I made four attempts to improve my financial matters and credit; they were Mary Kaye sales, Pharmacy tech class, Phlebotomy tech certification and finally enrolled in the "Credit Card Relief Program". The Credit Card Relief Program caused my Credit to be ruined. I was sending money to "C.C.R.", my bills were not being paid, and the money was sitting in a trust fund I knew nothing about. Due to my health and Finances, I saw no way out but to file Bankrupt. My Husband works overtime and 7 days a week to make ends meet. My main goal is to seek grants and scholarships to further my kids' education and to share with them their parents' mistake in life. I thank you and your company for all your help and assistance!**

-Thank You for helping me understand credit and how to use it correctly and how to avoid the pitfalls of abusing credit

-I was surprised to learn how credit card companies take full advantage of consumers. I still get credit card offers on a daily basis. There should

be laws preventing credit card companies from offering credit to anyone that is in the bankruptcy process. I just mail back the empty envelope after I shred the contents and offers.

-I enjoyed the convenience of taking this course on-line. It was informative and easy to understand.

-Course was very informative. I will gladly pass along any and all information that I have learned today to others that seek advice, if interested.

**-THE AUDIO FEATURE MADE IT VERY USER FRIENDLY AND AVOIDED THE COURSE FROM BEING MONOTONOUS**

-This course should be available to all high school kids to prepare them for life after they leave home. I think this should be mandatory in order for them to graduate!!! This reinforces the things I tried to do when I first got out on my own and fell by the wayside as I did not get the support I needed from my spouse. Now, with him no longer having an income, the family is relying on my pay and budgeting abilities to keep us on track. Thank you for helping me.

-Our situation is a bit different than the average bankruptcy. We are a casualty of the F.D.I.C. takeover of a local bank that went bankrupt. We would not have had to resort to this action had this not happened. I would like to say however that your course is very easy to understand and I feel that some of the information will be very handy in the future.

-This was a very informative course and I feel I have taken away some useful information that will help me in rebuilding my credit.

-This may sound silly, but I really got a lot of information from this. It has been very helpful and I want to thank you.

I hope everyone goes through this course compulsorily.

**-Very helpful and informative. I will refer to this course and use it in the future to rebuild my life. I would be interested in other specific courses to use in rebuilding my life and prevent any reoccurrence of my current problems.**

**-When first finding out that I had to complete an on-line program I assumed that it was just some busy work and a way to spend more money on something unuseful. Immediately I was amazed to find that this was for me and my only to help me become a more responsible productive individual with my finances. This course was very enlightening and would appreciate it there was something i could do monthly to help me stay on tract and maybe one day my story can be featured in your lessons on money management. Thank You so much for the honest help.**

I cannot use someone else's budget as my own. IT is all mine. I also will use some of this in my personal life as well, setting small personal goals for me. I really have learned something from this. Thank you**

**-I feel that this class and the information provided will help me to better prepare myself and to stay ahead in life. I gained some valuable knowledge from this that I wish I had known and put into use 10 years ago so maybe I wouldn't have hit the low point in the financial life.**

**-There were many things that I knew about in this course but there were some very, very important things that I knew about but never really did anything to make it happen, such as making a budget, I now see that this is the key. In the past, because I was not 100% sure on how to best go about doing this, I stayed away and so, I am where I am, which is not pretty sight, just as I have always felt and what I have learned in this course, that I can take the necessary steps to change things for the better. Thank you**
