-Over the years I have taken many courses but by far this has been the best. I have learned so much by taking this course. Thank you so much.

-This was one of the BEST things I could have ever done. I wish this was a required class for high school graduation. I wish all pastors would use this for couples who are getting married. This can really open communication for your entire immediate family (husband, wife, & children) to learn to set goals and budget Together. I wish this was a free class taught to anyone age 17 & up at churches, community centers, schools, or anywhere. THANK YOU.

-this was an AWESOME course...at first i was upset to take it because i was angry at the fact that i was forced to take it...but now that i have completed it, i am glad i did and would highly recommend it to anyone needing help or credit counseling. thank you so much...and you have my permission to use my response any way you wish. God bless you all.

-I learned a whole lot from this course. I now realize that I do need to make and keep a budget. I learned that savings should be at the top of my budget. I learned that making goals for myself will help me keep to my budget. I learned there is light at the end of the tunnel, and that I can help correct my bad past spending habits, and I can help correct my credit by making and sticking to my budget, paying my bills on time, and never spending more than I bring home. I also use to think that budgets do not work, until I took this course, and I now believe that I can make and keep a budget. I am sorry that I did not know these things before I had to file bankruptcy.

-This program has been very enlightening. It would be very good if everyone in America could take this course. Most of what I have learned I will never forget and will use it to better handle my finances. Thank -I was very blessed by this course. I have learned a lot from this course. This is a conformation into what my wife have been telling me. A very big thank you to the people / group who put this course together.

-This was an awesome experience!!!! I was initially intimidated by some of the questions but I completely enjoyed the process. Thank you so much for the wisdom, knowledge and insight this class has afforded me.

-I cannot tell you how eye opening this course was. I especially appreciate the spread sheets and will begin using all of them. My 24 year old daughter will as well. Hopefully, my children will learn from my mistakes, and avoid the stress and humiliation that comes with turning a blind eye to money problems. Thank you.

-I am glad that I was required to take this course. I have learned alot and now know where I went wrong and how to avoid it in the future. I have 2 daughters and I am going to let them read this since I printed it all out for future reference. Thank you.

-Just to let you know that this class has been very helpful for me. I have learned alot and will get my act together. I want to get back on the road of recovery and get my life back to normal. Thank you for the help

-This was great!! What a learning experience and I will pass along to others what I have learned. This should be taught in all schools from the time a child starts school and can understand \$\$\$\$. This has taken a burden from my shoulders and I can go on now to understand that I have to budget and cut unnecessary spending, save money and have a better relationship with my husband by working together to save and pay the bills. Thank you all!!!

-The information was given in a clear concise manner easy to understand and follow. It also gives a person insight into what they may be doing wrong and where they can improve in their spending habits. I was under the wrong impression concerning setting up savings accounts for different areas( retirement, auto/home repairs, travel, etc) I plan on putting these ideas into use in the future.

-I FOUND THIS COURSE VERY INTERESTING AND HELPFUL AND I WILL TAKE MUCH OF WHAT I LEARNED HERE WITH ME AS I TRY TO REBUILD MY LIFE NOW.

-If there is any additional information or courses, I would be most interested in studying them. I appreciate this opportunity and will begin applying it to my spending habits....starting with a budget and savings (not in that order). Thank you

-I have to admit to taking this course only because the bankruptcy laws required me to. I was expecting it to be of no help. But I found it to be a well designed, informative course, that if I follow, may be able to put me on the right track. I also found the counselor who did the first course to be very good.

-I know this course was mandatory, however, I felt I really learned a lot from it. Thank you for making what could have been a very boring 2 hours of mandatory reading and studying educational and informative.

-This was helpful. I could recognize some of my errors and misconceptions about money and hope to apply much of these suggestions to get a clean start and stay on track. Thank you.

-This course was very detailed and offered so many topics I was not aware of and would find useful in my goals to re-build my credit and have a second chance.

-This course gave me the complete understanding how important having good credit is. The information will be very useful to me in the future since i am a single individual.

-I am truly appreciative of the opportunity to take this course it was very informational and I learned a lot more about budgeting and spending than I ever realized.

-I thought that the online program was very easy to go through because it has the audio version. I am a slow reader so it made it very easy for me to complete.

-Very worthwhile class. Wish I would have taken this earlier. Everything it said not to do I had done in hopes of paying bills, ie. borrowing from one credit card to pay another.

-I learned quite a bit about personal credit that we as human beings forget to follow. It is so easy to get caught up in today's doings.

-I actually found this useful. I had to do this for my bankruptcy but I am literally walking away with knowledge to help me move forward. I was not aware of how much I needed to look out for..

-The program is comprehensive and will greatly help anyone who took it in terms of financial management. Thank you for this great opportunity.

-I feel this course was well worth my time. I think I will be able to use my money wiser and even be able to save. I have never been able to save money but I think I know how to do this now. Thank you for your help.

-This online program has given me a better sense of the ways I can get my money management back on track after bankruptcy. Thank you so much for this course and "Jumping through hoops" to complete bankruptcy is a smart way to educate filers to manage our money in new and strategic ways.

-I liked the class because I feel I learned something. I should have did this years ago. Before I married and divorced and before I remarried and Divorced, but the War in Iraq had a lot to do with the second marriage. Still I am interested in continued educations. Thank you.

-I wish I had been exposed to this information and learned from it at an earlier phase in my life. Better late than never, though. Thank you very much.

- I think the course is an excellent tool. So much I believe this should be shown to young adults so as to protect them from getting under before they know how or what they did.

-I WISH I HAD TAKEN THIS COURSE MANY YEARS AGO. IT DOES SHED A LIGHT ON HOW I GOT INTO THE MESS THAT I AM CURRENTLY IN. THANK YOU

-This was an excellent course. I found it very helpful and I am very pleased to have been given the chance to take it. I will definitely apply what I have learned.

-I hate that I have had to file bankruptcy, but I do feel that this course has helped me, and hopefully I can use what I have learned to never have to file again, barring any unforeseen circumstances. Thank you T

-I think that the course was right on target. When bills become too much you tend to put them to the side and you become disorganized quick. Setting goals and putting a budget together are absolutely needed. A big Thank You goes out to the folks who put this program together.

-I dreaded taking this course, but it was actually kind of fun and I actually learned a few things as well.

-I found the information in this course extremely helpful. I wish that something similar was offered during my high school career so that I could have possibly avoided the situation I am currently in. Thank you very much for the information given. Although for me it was a requirement I will be sure to refer to this website for any future questions I may have and also I will definitely refer anyone who is in need of credit knowledge to your services.
