

Money in Motion

Student Comments 6-14-07 to 7-15-07

-I loved the audio track. It made the material easier to follow and I am a bit of an "audio learner" as well as a visual learner so it gave me every possible advantage. Plus, it made additional information readily available, and the info was so relevant! This is info I will use for the rest of my life.

-This is a great program. It gave me a lot of awesome information. Thank you so much. Knowledge is power.

-Surprisingly...this was an excellent course! Very interesting...totally held my attention. Never took a break thru the 8-chapters...I was determined to complete everything...as each chapter was intrigued by the previous one.

-The course provided me with ways to help me save money while still being able to taking care of our expenses. All this information while useful comes at a time in my life that won't be as useful as it would have been if I had learned them when I was younger. I am now 61 years old and unemployed but this information will be shared with my children in the hopes that it will improve their future financial life.

-I had to take this course as a requirement for my bankruptcy, however i actually enjoyed it and learned a great deal. This is an excellent program in my opinion

-When we first signed up to take this course, we were very hesitant to really want to learn anything from this or take anything home from this, but now that we have completed this course we are both very pleased to have taken it. I feel that the entire course can be used in our everyday living and will help us to get back on track. Thank you

-This course reiterated knowledge I already had but reaffirmed how important these basic principals are. I understand that I have to invest my time, knowledge and discipline in order to attain my financial goals over time with patience. I also feel uplifted to know that it's never to late to begin again with a "fresh start"... & I'm very thankful for that.

-I thought at first this was going to be one huge waste of time but through it all I realized how essential it is to budget & how it really works hand in hand with setting goals. I found that information totally inspiring & has given me a new incentive to really put it into practice. This is the sort of thing they should be

teaching little kids in grammar school right along with reading, writing & math. Thank you for putting together such a comprehensive program you have given me a lot of food for thought to really focus on my spending by creating a budget. You have taken the stigma out of it for me. Thank you.

-Thank you, I was surprised to learn so much online. This course validated some ideas and problems that I have had lingering in the back of my mind. I was pleasantly surprised at how user-friendly and educational this online course was. The information was very useful and enlightening. I am definitely walking away from this as a more informed individual. It would be neat to see this enter the public education community as required education prior to high school graduation. Again, thank you!

-This was very interesting. I was scared to death at first, then I really got interested. Thank YOU

-especially rebuilding credit!

-great course I got a lot out of it.

-Thank you!!

-I wish I had known all of this a few years ago! Thank you very much!!

-The "Money in Motion" course was helpful to my understanding involving: Budgeting with the use of goals (short, mid, and long term). I was one who felt that I knew what I owed and didn't need to use a budget. Also, credit scores and how interest is determined was eye-opening to me in many areas. Useful is knowing what laws are beneficial to the consumer. Thanks

There will also be money put into savings for our goals or unexpected expenses. The only complaint that I have about the course is taking it all at one time. If the course could be broken down into sections and having a good review on what you have read would be better. Thanks For All Your Help!

This way we will earn more money in interests until bills are due later in the month. Also I think it may help with not spending more than you have. -I personally work for a company that provides this information free to anyone that is willing to sit down and find out their

financial position. You would be surprised how many people say no because they are afraid of coming to terms with their finances. They would rather blame everyone else instead of taking things in their control. If I had known this 9 years ago I wouldn't have been in this situation to have to claim bankruptcy. Everything here is what I teach on a more personal level and there is no fee.
